Re: Closure of Road on Lot 37

We are writing to let you know that the road on Lot 37 in Brown's Canyon from Brown's Canyon Road to the boundary between Lots 37 and 38 will be permanently closed on Friday, November 18, 2005 in order to prepare for mining operations on the land where the road is located. As indicated in our letter of November 4, although your permission to use the road terminated on October 31 when your building stone lease on Lot 38 expired, the owners of the surface and subsurface rights in Lot 37 are willing to grant permission to you to temporarily continue to use the road for the limited purpose of removing any mining equipment which may still be located on Lot 38. You may not use the road for any other purpose prior to November 18, or for any purpose whatsoever thereafter.

Sincerely,

WRIGHT/GARFF RESOURCES, L.L.C.
